POLY-MAX™ U.S. FLAGS

Our Poly-Max Flags are crafted using 2-ply 100% polyester bunting. The open weave construction reduces wind resistance, increasing flag life. Poly-Max material is extremely durable and ideal for commercial applications and high wind areas. Finished with white poly-cotton header. See page 5 for additional flag specifications.

Made in U.S.A.

ENDURA-NYLON™ U.S. FLAGS

Our Endura-Nylon flags are crafted using aniline-dyed 100% heavyweight 200-denier nylon bunting. Endura-Nylon material is fast drying, treated to resist fading and flies in the slightest breeze. Finished with white poly-cotton header. See page 5 for additional flag specifications.

Made in U.S.A.

Yellow represents the extra vertical stitching and green represents the reinforced corners.

U.S. FLAG FEATURES

STARS

EMBROIDERED STARS

12' x 18' and smaller flags come standard with embroidered white stars.

APPLIQUED STARS

15' x 25' and larger flags have opaque white nylon stars with zigzag stitching throughout.

HEADER FEATURES

HEADERS

All headers are made with a heavy-duty, white cotton-polyester blend army duck cloth.

ROPE THIMBLE

8' x 12' and larger flags include plated steel rope thimbles. Thimbles are attached to white rope using a triple crimped rope sleeve. The length of the rope is sewn into the header to stabilize its position and prevent bunching.

8' x 12' to 15' x 25'

20' x 30' & larger

GROMMETS

All grommets are solid brass. Grommets are spaced evenly throughout the length of the header. 12" x 18" flags have #1 grommets and 16" x 24" and larger flags have #2 grommets.

#1 Flat Rimmed

#2 Rolled Rimmed with tooth washer

GROMMET REINFORCEMENT

8' x 12' and larger flags include a heavy-duty plastic reinforcement sleeve at each grommet location.

8' x 12' to 15' x 25'

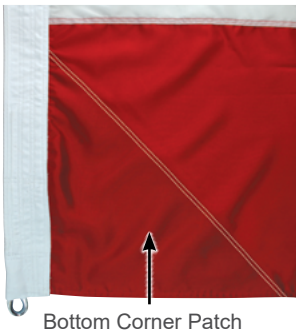

20' x 30' & larger

CORNER PATCHES

10' x 15' and larger flags include a 2-ply corner patch sewn into each header corner.

Top Corner Patch

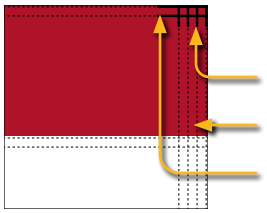

Bottom Corner Patch

All of our Poly-Max Flags and Endura-Nylon Flags on pages 2-3 are identical to the sewing specifications above.

Standard Ferrule

Where indicated below, our ornaments can be used with a ferrule. A ferrule is used for indoor use on wood poles. When using an ornament for an indoor aluminum pole with a top adapter already installed, a ferrule is not required.

HI-IMPACT ABS STYRENE PERCHED EAGLE ORNAMENT

With a shiny multi-layer gold plated finish this eagle is extremely durable. Comes with gold mounting screw. This ABS styrene perched eagle can only be mounted on our oak finished wood poles.

EVOLUTION OF OLD GLORY

Shown here are the 27 legal flags flown throughout our history, with effective date(s) and state addition(s) that changed the star field.

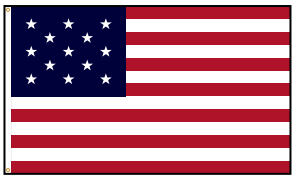

By law, a star is added to the U.S. Flag on the 4th of July following the admission of a State(s) to the Union.

Contrary to popular belief, the first official U.S. Flag was not the Betsy Ross Flag (13 stars in a circle) but the staggered star pattern shown in the below 13-star flag.

It is important to note that no U.S. Flag ever becomes obsolete. Each flag shown is still a legal flag and may be flown at any time.

# OF STARS	3' x 5' NYLON OUTDOOR APPLIQUED FIELD SEWN STRIPES (Weight .65 lbs)		4' x 6'* NYLON OUTDOOR APPLIQUED FIELD SEWN STRIPES (Weight 1.0 lbs)		5' x 8'* NYLON OUTDOOR APPLIQUED FIELD SEWN STRIPES (Weight 1.4 lbs)

♦SOLD BY THE DOZEN

GADSDEN FLAGS

The Gadsden flag and other rattlesnake flags were widely used during the American Revolution. There was no standard American flag at the time. The Gadsden flag was first used in February 1776. The flag depicts a rattlesnake in the attitude of going to strike with the words 'DONT TREAD ON ME' underneath.

OUTDOOR HONOR & REMEMBER FLAG

Honor and Remember flags show support for all the American lives lost in the defense of Freedom.

- **The Red Field** represents the blood spilled by brave men and women in America's military throughout our history, who willingly gave their lives so that we all would remain free.
- **The Blue Star** represents active service in military conflict. This symbol originated with World War I, but on this flag it signifies service through all generations from the American Revolution to present day.
- **The White Border** beneath and surrounding the gold star recognizes the purity of sacrifice. There is no greater price an American can pay than to give his or her life in service to our country.
- **The Gold Star** signifies the ultimate sacrifice of a warrior in active service who will not return home. Gold reflects the value of the life that was given.
- **The Folded Flag** signifies the final tribute to an individual life that a family sacrificed and gave to the nation.
- **The Flame** is an eternal reminder of the spirit that has departed this life yet burns on in the memory of all who knew and loved the fallen hero.

9' X 1" ROTATING POLE WITH LAWN SOCKET

This white painted aluminum 2-piece pole is your ultimate choice for a display pole. The top rotates on ball bearings so the flag will never tangle. For the easiest and most versatile installation, this pole comes with two flag fasteners for flying a grommeted flag and also with a snap and swivel ring for displaying flags with a pole sleeve and tab. The pole comes complete with a galvanized steel lawn socket.

FEATHER FLAG ACCESSORIES

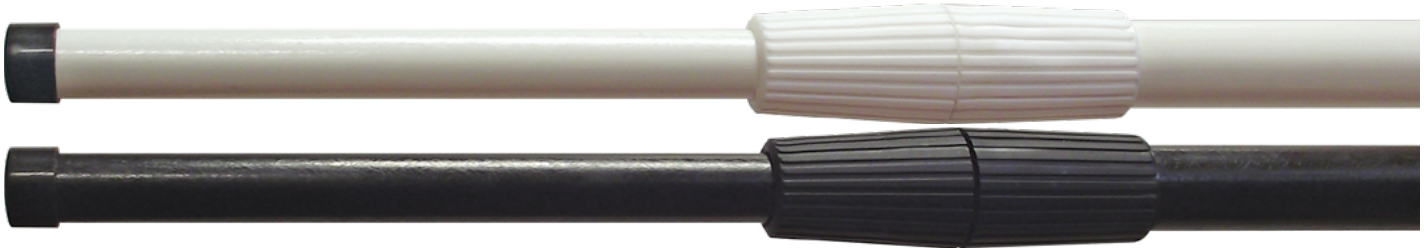

TELESCOPING SUPERFLEX™ POLES

FOR 12' X 26" FEATHER FLAGS

These fiberglass flagpoles sway in the breeze producing a dramatic, attention-getting display. Available in both 15' and 21' exposed height sizes. The 15' pole is adjustable from 6' to 15' while the 21' pole is adjustable from 8' to 21'. Poles come with 21" PVC ground sleeve and easy-to-follow instructions.

324187	21"	**$11.60**	.30

ALUMINUM FEATHER FLAGPOLE

FOR 7' X 17" FEATHER FLAGS

This set comes with a two section 1" diameter silver mill finish pole - a 4' bottom and a 5' top plus a galvanized steel fabricated lawn socket. The top of the pole is capped with a plastic top plug to protect the top of the Feather Flag from premature wear.

ITEM #	HEIGHT	COLOR	1-11	12+	LBS.
324185	9'	SILVER	**$54.00**	**$50.00**	1.6

TEAR DROP FLAG ACCESSORIES

TEAR DROP FLAGPOLE

These continuous tapering, flexible black fiberglass flagpoles measure 14' when fully assembled. The bottom measures 1" and tapers to 1/4" at the top. This 3-piece pole swedges together perfectly and all swedge points are reinforced with stainless steel fittings. Pole is rubber tipped to prevent flag damage. Comes complete with heavy-duty, black canvas carry bag.

ITEM #	1-5	6-11	12+	LBS.
155527	**$123**	**$117**	**$101**	3.7

TEAR DROP POLE IN-GROUND MOUNT

Once installed in the ground, the Tear Drop Flag Pole slips over a rotating spindle. The Tear Drop Pole In-Ground Mount measures a total of 23-3/8" long, with 16" of length under the rotating spindle. Weight = 3.2 Lbs.

ITEM #	1-5	6-11	12+
155528	**$57**	**$54**	**$49**

TEAR DROP POLE SURFACE MOUNT

This rotating base can be permanently mounted or can be temporarily held in place with a heavy-duty water donut. When filled, the water donut holds 2-1/4 gallons of water and weighs 18-1/2 pounds. This water donut installation should only be used when winds do not exceed 5 m.p.h.

ITEM #	1-5	6+	LBS.
155529	**$99**	**$95**	8.6

CUSTOM PRINTED FLAGS AND BANNERS

Any design and quantity can be printed using our direct print digital/dye sub process. The possibilities are endless with no limit on colors or types of image.

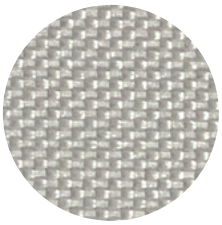

Outdoor flags up to size 6' x10' are finished standard with heavy duty canvas header and two brass grommets. On 8' x 12' and larger flags will be finished with roped header and thimbles.

Other finishing options are available upon request.

2025 Flags, Flagpoles & Accessories Catalog
©2025 Eder Flag Manufacturing Company, Inc. All Rights Reserved. CAT-25C01

MATERIAL OPTIONS

200 DENIER NYLON
Durable with bright colors, suitable for outdoor use. Print can be up to 72” width.

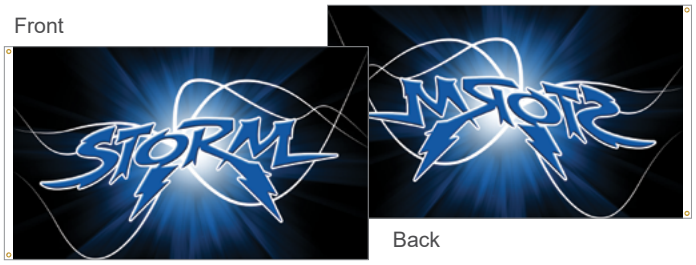

100% TIGHT-KNIT POLYESTER
Excellent flyability and long lasting which is ideal for outdoor use.

POLY SATIN
Beautiful, silk-like finish suitable for indoor use such as wall and podium banners.

PRINTING OPTIONS

SINGLE REVERSE
Printed on front side with full ink penetration.
On the reverse side, the image will appear backwards.

DOUBLE-SIDED
Two flags printed and sewn together back to back with a heavy duty block out liner in between.

ARTWORK REQUIREMENTS

For a prompt approval process please provide the following:

- ✓ For a clean printed image Vector art is required
- ✓ All fonts and strokes are outlined
- ✓ Spell checked for errors and proof the art
- ✓ For maximum color match include solid coated Pantone® colors

• **Note:** undefined process colors may not print as previewed

Preferred and accepted file formats for artwork submission:

- **.PDF** – Portable Document Format
- **.AI** – Adobe Illustrator Document
- **.EPS** – Encapsulated PostScript

All Custom Flags and Banners including our Appliqued Nylon Outdoor Flags are made in the U.S.A.

CUSTOM AVENUE BANNERS

- **VINYL**
- **POLY TENT**
- **APPLIQUED NYLON**
- **SUNBRELLA**

We offer full 4-Color process printing on 10-oz. Vinyl, 13-oz. Vinyl and Poly Tent. Since our inks are U.V.-protected, these banners can be used indoors or outdoors with no color fading. Sizes can range up to 52" x 100' or can be tiled to any size. We also offer Appliqued Nylon and Sunbrella Avenue Banners to meet all of your outdoor banner needs.

CUSTOM TENT KIT

This popular tent strikes a perfect balance between cost effectiveness and portability.

- Tent is 10' x 10' when set up
- Canopy available in eight colors
- Crank-up canopy creates a taut, clean peak
- Frame is constructed of 1 mm steel with powder-coated finish
- Frame features ABS nylon joints
- Square-shaped legs are 1.125" x 1.125"
- Legs feature plastic push buttons for pinch-free height adjustment
- Easy-glide tent feet allow the tent frame to slide on dirt and grass, preventing the legs from catching
- Easily collapses to fit inside the included soft case with wheels
- Tent can be secured to the ground with the included stake kit
- Frame must be secured to the ground to prevent wind damage

Kit Includes Hardware (Frame), Full-Color Imprint 600 Denier Polyester Canopy, Carry Case, Ground Stake and Rope

Please contact us for a prompt quotation.

CUSTOM RETRACTOR KIT

This display pictured is as reliable as the popular Economy retractor, but it includes some great additional features like improved durability.

- Heavy-duty aluminum base
- Single-footed design keeps the retractor stable while maintaining a low profile
- Flip-lever telescoping pole makes setup and adjustment simple
- Banner height is adjustable
- Banner attaches with snap rail on top and hook-and-loop fasteners on bottom

Kit Includes Hardware, Single Sided Full-Color Digital 600 Denier Polyester Banner (Installed) and Carry Case

CUSTOM SAIL SIGN KIT

Sail signs are built to move in the wind, making them truly hard to miss. Premium flags are reinforced with black pole pockets constructed of a high tensile elastic polyester binding.

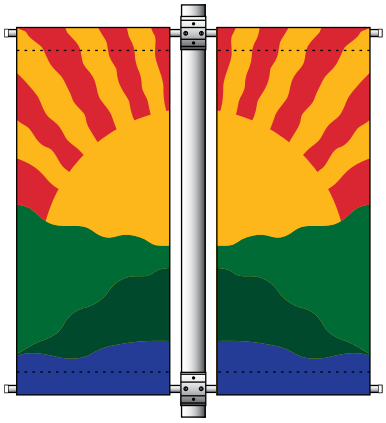

- Due to its feather-like shape, the razor flag style is sometimes called a feather flag
- Flag is reinforced with nylon webbing pole pockets to create a stylish black outline around the edge of the flag
- Flag attaches to a fixed hook on the pole using the included bungee tie kit
- Carbon composite poles are strong and flexible
- Uniform carbon composite overlay pole construction with high-gloss black paint finish
- Polished aluminum collar pole segment ends and ergonomic, rubber-reinforced base grip
- Steel scissor base is great for use on hard, flat surfaces both indoors and out
- Included ballast can be filled with water to keep the unit weighted down
- High tensile strength elastic polyester binding

Kit Includes Single Sided Full-Color Dye Sublimated Super Poly Knit Flag, Hardware, Water Ballast, Base, Carry Case and Bungee Kit

NEVERFURLS

With NeverFurl® you can fly your flag all day long, every day of the year, and the wind will never wrap your flag around the flagpole. The NeverFurl® kit is easy to install and comes complete with everything needed including instructions and detailed drawings. No additional tools are required.

The design of the NeverFurl® device allows each rotator to work independently with the wind by moving up and down ***and*** rotating around the pole thereby eliminating flag wrapping. Works with all flag sizes regardless of changes in wind speed or wind direction.

Silver (6' Only) White Wood Grain Joint Detail

ALUMINUM ANTI-FURL ROTATING POLES

These 2-piece poles are available in a brushed aluminum, white painted or wood grain finish. The top of the pole rotates on ball bearings so the flag won't tangle. There's no need for an unfurling tube.

These poles come with 2 flag fasteners (for flying a grommeted flag) and a snap and swivel ring (for flying flags with a pole sleeve and tab). Use with brackets that accept a 1" outside diameter pole (not included).

ITEM #	LENGTH	FINISH	PRICE	LBS.
324174	5'	SILVER	**$38.90**	2.1
324175	5'	WHITE	**40.50**	2.1

FLY IT FLAGPOLE SETS WITH FLAG

Flagpole consists of powder coated white painted seamless aluminum tubing sections which swedge together providing a smooth exterior finish.

STANDARD FITTINGS INCLUDE:

- Eyebolt & pulley assembly for easy raising & lowering of flag
- Solid braided polypropylene halyard
- 2 nylon flag snaps
- Cast nylon rope cleat with mounting screws
- Gold vinyl ball ornament
- Heavy-duty ground sleeve
- Can be shipped via parcel carrier

WHITE TITAN FLAGPOLE SETS

These flagpoles offer exceptional quality at a budget price. The flagpole tubing sections are heavy-duty 19 gauge first run quality steel. The entire inside length of the flagpole is galvanized to prevent rusting while the outside is beautifully finished with a white powder coating. The tubing sections swedge together perfectly to provide a smooth exterior finish.

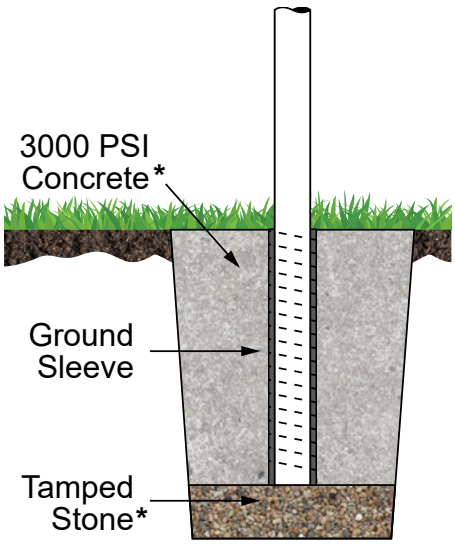

STANDARD FITTINGS INCLUDE:

- Gold vinyl ball ornament
- Pulley assembly
- Solid braided polypropylene halyard
- 2 nylon flag snaps
- Cast nylon rope cleat with mounting screws
- PVC foundation sleeve
- Easy-to-follow installation instructions
- Can be shipped via parcel carrier

HOMESTEADER FLAGPOLE SETS (NO FLAG)

All-aluminum ground set flagpoles available in 10', 15', 20', & 25' exposed heights. The silver anodized, seamless aluminum tubing sections swedge together providing a smooth exterior finish.

STANDARD FITTINGS INCLUDE:

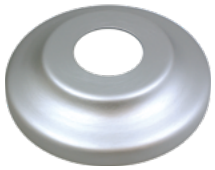

- Gold anodized aluminum ball ornament
  3" diameter on HS10, HS15 & HS20
  4" diameter on HS25 & HS20HD
- Cast aluminum truck with pulley
- Solid braided polypropylene halyard
- 2 nylon flag snaps
- Rope cleat with mounting screws
  Cast nylon cleat on HS10, HS15 & HS20
  Cast aluminum cleat on HS20HD & HS25
- Decorative display/storage box
- Heavy-duty ground sleeve
- Can be shipped via parcel carrier

CUSTOM FABRICATION

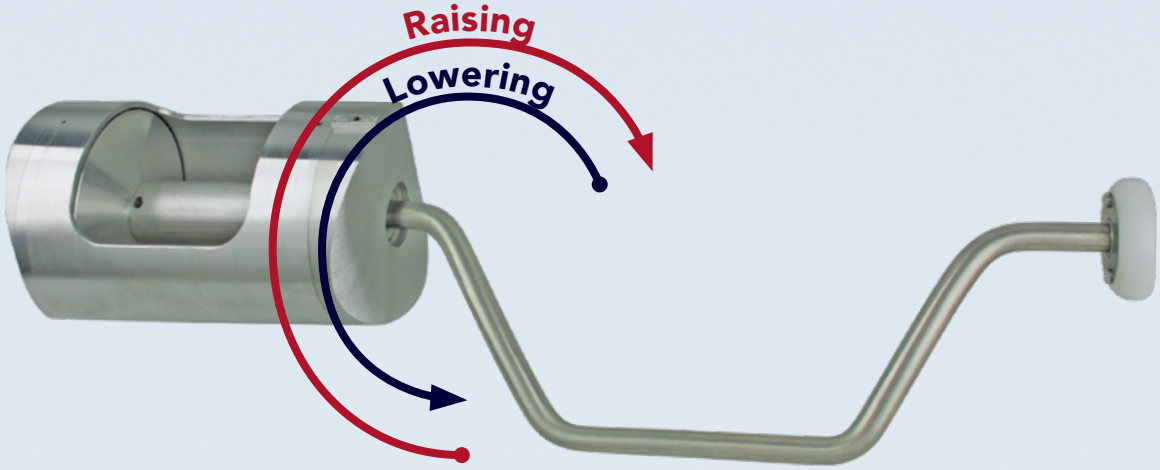

- Welding capabilities: Aluminum and Steel
- Material cutting equipment
- Ability to polish aluminum tubing up to 45' in length
- Custom machining for various applications
- M-winch repair
- Flagpole and flagpole accessory customizations available upon request

Contact Eder Flag for your special requirements.

TOP PRODUCT: M-WINCH

Easy to use internal halyard winch system

- Maintenance free – No lubrication needed
- Sleek design
- Secure – Requires a key and specialized handle to lower flag
- Quick raising and lowering of flag
- Absence of separate braking system minimizes chance of slippage
- Available in 20' to 80' poles

OUTDOOR FLAGPOLES

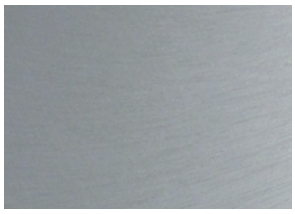

Our cone tapered ground set aluminum flagpoles are precision fabricated from new, 6063-T6 tubing utilizing the industry's most sophisticated manufacturing processes. The conical portion tapers approximately 1" in every 5-1/2 feet.

All anodized flagpole shafts are highly polished with fine grain aluminum oxide cloth resulting in a high quality, deep satin lustre finish. This finish represents the ultimate in architectural finishes for aluminum flagpoles. The elegant, soft sheen remains maintenance free. See below for anodized finishes available as standard.

STANDARD & ANODIZED FINISHES

Satin

Clear Anodized

Bronze #313 Anodized (Dark)

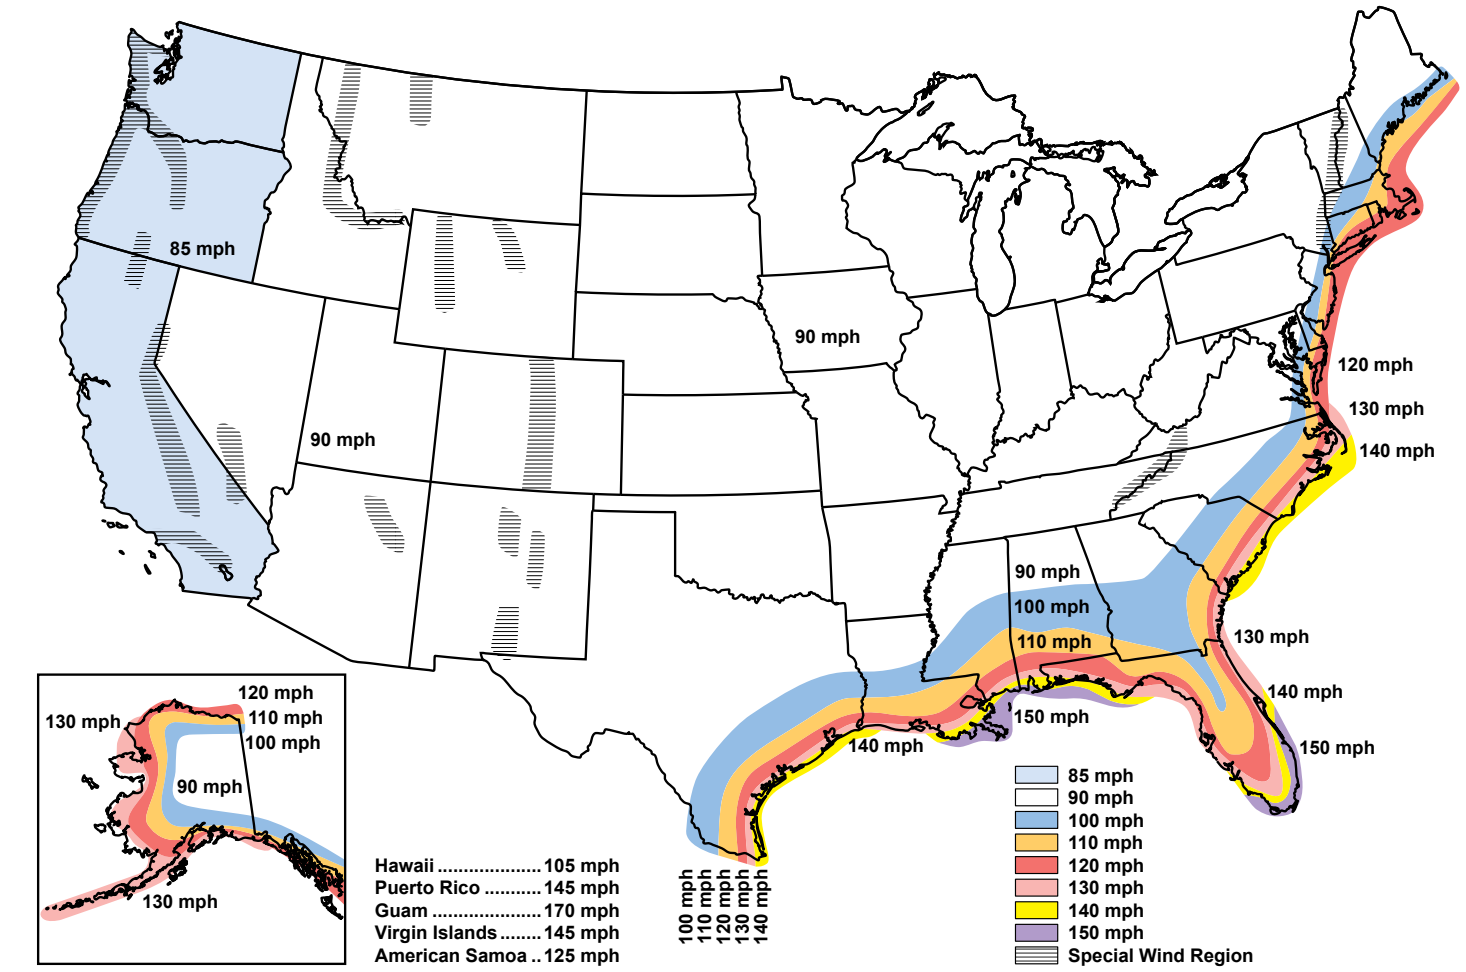

Black Anodized (#335)

Custom color powder coating is also available upon request.
Please contact us and provide specific RAL # for a prompt quotation.

GROUND SET CONE TAPERED ALUMINUM FLAGPOLES WIND LOAD CHART

The map above shows the maximum steady wind expected at an elevation of thirty feet above ground level within a fifty-year period of recurrence. Areas with the same maximum constant or steady wind speed are indicated.

Because wind speeds are usually not constant, and gusts are involved, flagpoles (both flagged and unflagged) are listed in this catalog with a constant wind speed and a 1.3 gust factor.

Flagpoles and their associated wind speeds listed assume that ten percent of the overall length of the flagpole is buried at or near ground level per industry recommendations. Special engineering may be required for other applications such as wall or roof mounted flagpoles. Contact us for a prompt response regarding any situation that may require special engineering.

Safe flagpole design requires knowledge of the loads to which they will be subjected. Principal load acting on flagpoles is wind load and that load must be carefully determined. Maximum wind speeds to which flagpoles are exposed are dependent upon many factors such as geographical location, whether or not it is in the center of a large city, a small town's outskirts, seashore, at ground level or on the roof of a high building. Wind speeds generally are higher along coastal areas than inland. They are also higher in open country than in the center of cities. Wind speed also becomes greater as height above ground increases. Wind exerts a force on the pole as well as the flag, thus both loads must be added to determine total load. Flags of different sizes are designed to be flown from different poles.

It's important that flagpoles be selected which are capable of supporting the largest flag intended to be flown in the highest wind speed to which it will be subjected. Loads on flagpoles are resisted by the mounting foundation, roof, or wall to which it is secured.

- Specified wind speed calculations are based on nylon flag material and use of suggested flag size.
- All flagpole design calculations are in accordance with GUIDE SPECIFICATIONS FOR DESIGN LOADS OF METAL FLAGPOLES, ASNI/NAAMM FL 1001-07 Fifth Ed.

PLEASE NOTE: recommended flag sizes throughout this catalog do not represent a guarantee that the flag size shown may be safely flown in all wind speeds. When flying oversized flags or flags above the maximum wind rating, personal injury, flagpole damage or property damage can occur.

Signed and sealed engineering documentation is available upon request. In house NAAMM based loading calculations are available upon request at no charge. Signed and sealed engineering documents available for all states at a fee.

SECTIONAL SPECIAL BUDGET SERIES

External Halyard Ground Set Cone Tapered Aluminum Flagpoles

Looking for an excellent way to reduce your shipping costs on 20 ft. and 25 ft. aluminum flagpoles?

Eder Flag's three section 20 ft. and four section 25 ft. Special Budget Series flagpoles can be shipped via parcel carrier!

These popular poles are:
- Simple to install and come complete in a boxed set with all the standard accessories.
- Easy to store in your warehouse or backroom.
- Available in satin, clear, bronze and black anodized finishes.

This line of commercial grade flagpoles, manufactured using 6063-T6 aluminum tubing, can be used in both residential and commercial applications. These cone tapered flagpoles have the elements of a one piece pole with the advantage of low shipping costs.

DELUXE IH SERIES

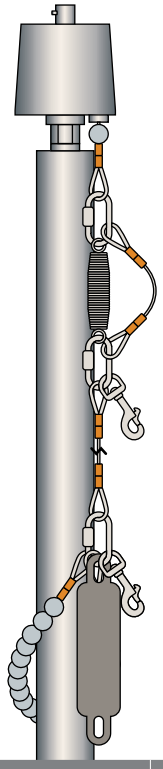

Internal Halyard Ground Set Cone Tapered Aluminum Flagpoles

These internal halyard flagpoles contain a winch mounted inside the flagpole shaft, operable only with a removable crank handle. As the stainless steel cable unwinds from the winch, it passes up through the inside of the flagpole shaft, over the truck sheave to the outside of the shaft, where the retainer ring provides a sliding anchor. A counterweight, heavily coated with neoprene, attached to the retainer ring, allows the halyard to be lowered for fastening or removing the flag. The winch is gearless and self-locking at any point, eliminating the need for a separate brake. This direct drive winch provides rapid raising and lowering of the flag with little effort. This design does not require any welding, thus avoiding discoloration when an anodized finish is desired. No monthly lubrication is needed.

20' – 35' Poles

40' – 80' Poles

STANDARD ACCESSORIES

- Cast aluminum revolving truck with enclosed stainless steel bearings and raceway
- Stainless Steel Cable Assembly
- Deluxe Flag Arrangement
- Retainer ring and counterweight
- M-Winch System
- Spun aluminum flash collar
- Galvanized steel foundation sleeve
- See page 123-124 for optional ornament selections

HURRICANE SERIES FLAGPOLES - WITH M-WINCH

Internal Halyard Ground Set Cone Tapered Aluminum Flagpoles

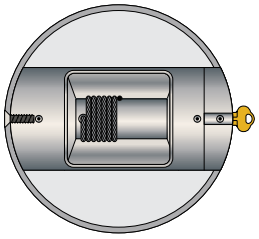

These internal halyard flagpoles contain a winch mounted inside the flagpole shaft, operable only with a removable crank handle. As the stainless steel cable unwinds from the winch, it passes up through the inside of the flagpole shaft, over the truck sheave to the outside of the shaft, where the retainer ring provides a sliding anchor. A counterweight, heavily coated with neoprene, attached to the retainer ring, allows the halyard to be lowered for fastening or removing the flag. The winch is gearless and self-locking at any point, eliminating the need for a separate brake. This direct drive winch provides rapid raising and lowering of the flag with little effort. This design does not require any welding, thus avoiding discoloration when an anodized finish is desired. No monthly lubrication is needed.

STANDARD INTERNAL POLE ACCESSORIES

- Cast aluminum revolving truck with enclosed stainless steel bearings and raceway
- Stainless steel cable assembly
- Deluxe flag arrangement
- Retainer ring and counterweight
- M-Winch system
- Spun aluminum flash collar
- Galvanized steel foundation sleeve
- See page 123-124 for optional ornament selections

TILTING SHOE BASE FLAGPOLES

All of the cone tapered aluminum flagpoles on pages 102 through 115 with a 3", 4", 5" or 6" butt diameter can be supplied with a tilting shoe base. The tilting base is circumferentially welded to the base eliminating the need for a flash collar. The hinged portion of the base is held in place by (3) stainless steel, Allen head bolts and pivots on a solid aluminum pivot rod. Anchor bolts are furnished for mounting to a concrete base. Not recommended for nautical poles.

- Maximum flagpole height for Tilting Shoe Base mount is 30' exposed
- Tilting Shoe Base is not available with the Hurricane Series Flagpoles
- Adding any Shoe Base mount will reduce the wind rating of the flagpole
- Shoe Base mounts are recommended for grade level mounting only

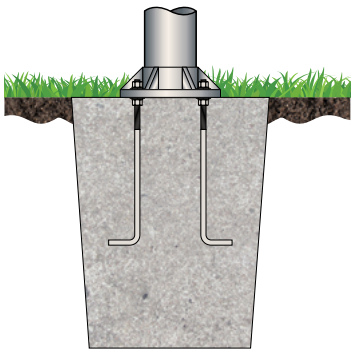

FOR TILTING SHOE BASE FLAGPOLES, ADD THE FOLLOWING PRICING TO ANY OF THE FLAGPOLES ON PAGES 102–115.

ITEM#	BUTT DIA.	1-2	3-6	7+
323882	3"	$800	$780	$710
323883	4"	970	910	880
323884	5"	990	960	890
323885	6"	990	960	890

SHOE BASE FLAGPOLES

All cone tapered aluminum flagpoles up to 8" butt diameter on pages 102 through 115 can be supplied with a shoe base mounting system. The aluminum base is circumferentially welded to the flagpole shaft. A high profile spun aluminum flash collar is supplied as standard unless otherwise specified. Anchor bolts are furnished for mounting to a concrete base. In addition to a shoe base, a mandrel is inserted into pole for added structural support.

- Adding any Shoe Base mount will reduce the wind rating of the flagpole
- Shoe Base mounts are recommended for grade level mounting only

FOR SHOE BASE FLAGPOLES, ADD THE FOLLOWING PRICING TO ANY OF THE FLAGPOLES ON PAGES 102–115.

For External Halyard Poles • Cap Style • Revolving • Double Pulley

RTC-2 SERIES

- **Construction:** cast aluminum
- **Pulley:** 1-15/16" outside diameter cast nylon on 1/4" stainless steel axles
- **Max halyard diameter:** 5/16"
- **Truck:** secured by 3 stainless steel set screws (1/4"-20NC on RTC-1-2, RTC-1-138; 5/16"-18NC on RTC-1-238)
- **Ornaments*:** accepts spindle threading of 1/2"-13NC. Secured by 1 stainless steel set screw (1/4"-20NC)
- **Movement:** utilizes stainless steel ball bearing assemblies for ease of rotation, product life, and strength

POLE TOP ADAPTERS

These adapters are used when mounting a truck that has a spindle threading of 1-1/4" NPT and the pole does not have a threaded top plug installed. The adapter is tapped 1-1/4" NPT and is designed to slip over the top of the pole and is secured by three 1/4"-20NC stainless steel set screws. Please specify color when ordering. If not specified, silver will be supplied.

With Cylinder Lock

With Padlock

Cleat Cover Boxes can be mixed to achieve the higher quantity pricing.

CLEAT COVER BOXES

Cast aluminum with stainless steel hinge pins. Design allows for easy installation utilizing the cleat holes to mount the cleat cover box. Comes complete with your choice of padlock or cylinder lock. Two extra long 1/4"-20NC stainless steel mounting screws are included. The distance between bolt centers is 2-3/4". Rope cleat is not included - recommended cleats are the CL9; see previous page for pricing. Standard colors are Silver, or painted to match Clear, Bronze, White or Black.

HALYARD COVERS WITH MOUNTING SCREWS

This 1-3/4" wide by 1" deep aluminum channel is designed to be used with the cleat cover boxes above by providing additional protection 5', 6', 8', or 10' above the cleat cover box. The 5', 6', and 8' models have an upper & lower hinge assembly and is secured to the pole with six #10-32NC stainless steel pan head screws (included). The 10' model has upper, middle and lower hinge assemblies and is secured to the pole with nine #10-32NC stainless steel pan head screws (included). Note: Shown with cleat cover box which is sold separately and is not included in the pricing below. Standard colors are Silver, or painted to match Clear, Bronze, White or Black.

M-WINCHES

Standard finishes available: Satin, Clear, Bronze, White, Black

The maintenance-free M-Winch is gearless and self-locking at any point, eliminating the need for a separate brake. This direct drive winch provides rapid raising and lowering of the flag with little effort. The design does not require any welding, thus avoiding discoloration when an anodized finish is desired. No monthly lubrication is needed. The winch is inserted into the pole and secured with a stainless steel bolt on the back side of the pole. Comes standard with lock and keys. Other sizes available upon request.

This is the appearance of the M-Winch in the locked position.

To remove the lock, insert the key, turn counter-clockwise, and remove the lock, exposing the M-Winch insertion slot.

Insert the handle into the M-Winch insertion slot, apply inward pressure to the locking mechanism, and raise or lower the flag to the desired position.

STAINLESS STEEL WINCHES

These winches are available for use on flagpoles with a butt diameter of 6" or larger. These gearless winches utilize cast bronze internal brakes which release when a winch handle is inserted and rotational pressure is applied. The winch is locked at any position by removing the handle which engages the brake system. The small size is generally used on flagpoles up to 45', the large size is used on flagpoles from 50' thru 80' and the X-Large size is used on flagpoles higher than 80'. The winch is mounted to the inside of the flagpole with two 5/16"-18NC stainless steel bolts with mounting centers being 3-1/2". Recommended stainless steel cable diameter is 1/8". Monthly lubrication required.

Arrangement shown with 2 Quick Links

STANDARD FLAG ARRANGEMENTS

Constructed of 1/8" stainless steel aircraft cable with a stainless steel thimble attached at each end with 2 copper crimps. These flag arrangements provide the method of attaching the flag or flags to the cable assembly. This is also an excellent method for changing the quantity of flags or the size(s) of flag(s) without having to change the entire cable assembly. Standard flag arrangements are supplied with either 2 or 3 stainless steel quick links depending on the recommended flag size. Deluxe arrangements are supplied with a more complete set of accessories.

Arrangement for flag size 6' x 10' or smaller

Shock spring and Safety Cable supplied with arrangements for 8' x 12' or larger flag sizes

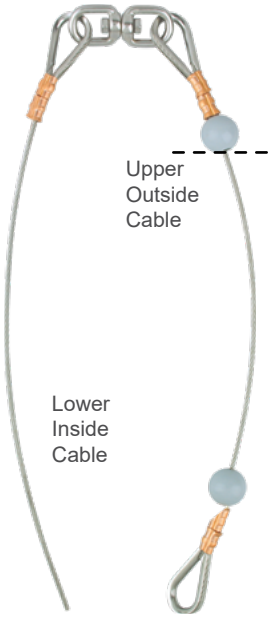

DELUXE FLAG ARRANGEMENTS

Constructed of 1/8" stainless steel aircraft cable with a stainless steel thimble attached at each end with 2 copper crimps. These flag arrangements provide the method of attaching the flag or flags to the cable assembly. This is also an excellent method for changing the quantity of flags or the size(s) of flag(s) without having to change the entire cable assembly. Deluxe flag arrangements are supplied with either 2 or 3 stainless steel quick links and stainless steel swivel snaps depending on recommended flag size. Shock spring and safety cable are supplied on 8'x12' and larger flag sizes.

CABLE ASSEMBLIES

Constructed of stainless steel aircraft cable incorporating a stainless steel swivel to minimize stress on the cable and reduce the possibility of the lower cable twisting due to the rotation of the truck assembly. If ordering a cable assembly separate from a flagpole, some field assembly will be required as the upper cable must be threaded through the truck assembly. The thimble and crimps for the outer end of the assembly are sent unattached. Standard cable assemblies are designed for flagpoles with an M-Winch installed at 4' above grade.

Poly Rope Assembly # 360096 shown

ROPE ASSEMBLIES

These assemblies are typically used in rope style internal halyard flagpoles where a cam cleat has been installed. Comes complete with a zinc plated carbon steel rope thimble attached to one end of the rope and stainless steel quick link.

TECHNORA© ROPE ASSEMBLIES

High performance fibers are encased inside a polyester fiber yarn jacket resulting in a high strength, low stretch, U.V. and abrasion resistant flagpole halyard.

ROPE RETAINER RINGS

Retainer rings are generally used with internal halyard flagpoles by providing a means of keeping the bottom of the flag close to the pole and as an aid to raise and lower the flag. Retainer rings can also be used on large multi-grommet flags on both external and internal halyard flagpoles as a means to keep the flags close to the pole and reduce the strain on the upper and lower grommets of the flag. These roped retainer rings are constructed of 3/16" polyester wire center halyard with a zinc plated carbon steel thimble attached to one end with an aluminum crimp. Complete with stainless steel quick link. Standard colors are White, Silver, Bronze and Black. Please specify color when ordering. If not specified White will be supplied.

BEADED RETAINER RINGS

Retainer rings are generally used with internal halyard flagpoles by providing a means of keeping the bottom of the flag close to the pole and as an aid to raise and lower the flag. Retainer rings can also be used on large multi-grommet flags on both external and internal halyard flagpoles as a means to keep the flags close to the pole and reduce the strain on the upper and lower grommets of the flag.

These beaded rings are constructed of either 1" or combination of 1" & 2" diameter nylon balls strung onto 1/8" stainless steel aircraft cable with a stainless steel thimble attached to each end with two copper crimps. Complete with stainless steel quick link. The length of each retainer ring is determined by measuring from the outside tip of each thimble (the quick link is not included in the measurement).

INTERNAL HALYARD DOOR & FRAME UNITS

This unit is designed for 5" diameter poles and is used with rope style internal halyard systems. Each unit consists of a hinged door mounted to the front of the frame and a cam cleat (optional) mounted to the back of the frame. The entire unit is inserted into the flagpole shaft and secured with eight 1/4"-20NC stainless steel screws. Minimum hole opening 5-1/2" x 3-1/4". Lock & keys included. Standard colors are Silver, or painted to match Clear, Bronze, White or Black. Please specify color when ordering. If not specified Silver will be supplied.

HIGH PROFILE 'TRUMPET' ALUMINUM FLASH COLLARS

Trumpet collars are generally used with flagpoles where a shoe base is welded to the bottom; however, these collars can be used on standard in-ground mounted flagpoles if a higher profile is desired. Supplied in a standard wall thickness of .060". The chart below contains the combinations most commonly requested. For other combinations please contact us.

STANDARD PROFILE SPLIT ALUMINUM FLASH COLLARS WITH .060" WALL THICKNESS

Satin

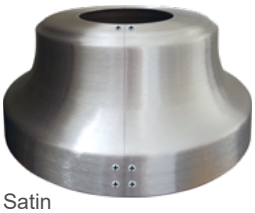

A split collar can be useful when replacing or adding a collar to an installed flagpole without removing the pole from the foundation sleeve. The collar is split in half and mounting tabs with screws are installed on the under side of the collar. The quantity and size of the mounting tabs may vary depending on the size of the flash collar ordered.

HIGH PROFILE SPLIT 'TRUMPET' ALUMINUM FLASH COLLARS

Satin

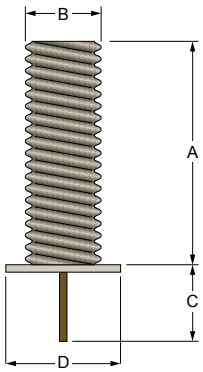

Trumpet collars are generally used with flagpoles where a shoe base is welded to the bottom; however, these collars can be used on standard in-ground mounted flagpoles if a higher profile is desired. A split collar can be useful when replacing or adding a collar to an installed flagpole without removing the pole from the foundation sleeve. The collar is split in half and mounting tabs with screws are installed on the under side of the collar. The quantity and size of the mounting tabs may vary depending on the size of the flash collar ordered. Supplied in a standard wall thickness of .060". The chart below contains the combinations most commonly requested. For other combinations please contact us.

GALVANIZED STEEL FOUNDATION SLEEVES

The most common type of flagpole installation is the in-ground foundation sleeve method which calls for 1' of the flagpole to be encased in the ground sleeve for each 10' of exposed flagpole height. The diameter of the sleeve should be at least 2" greater than the outside diameter of the flagpole with the area between the flagpole and the sleeve filled with dry sand. Sleeves with a 6" diameter are supplied with a base plate and grounding spike. Sleeves with a diameter of greater than 6" are supplied with a base plate, support plate, grounding spike and, for ease of vertical alignment, steel centering structure welded to the inside of the base plate. If you require other sizes than listed or have special on-site conditions please contact us.

4' & 4-1/2' ground sleeves are available in both one and two piece options. The two piece option would allow for parcel carrier shipping. Please contact a sales representative for details.

PVC SLEEVES

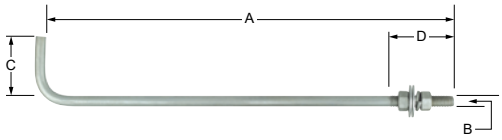

Poles slip into form fit sleeves snugly - no voids to fill with sand. Standard sleeves require wood wedges & sand for a proper installation.

WHEN TO DISPLAY THE FLAG

The flag should be displayed on all days when weather permits, especially on legal holidays or other special occasions. It is customary to display the flag from sunrise to sunset on buildings or on stationary flagstaffs in the open. However, on special occasions it may be displayed at night, preferably lighted. In several places the flag flies day and night; among these are the Capitol in Washington, D.C., and the Fort Henry National Monument in Baltimore, which was the inspiration for "The Star Spangled Banner" by Francis Scott Key.

The flag should be displayed…
- on or near the main administration building of every public institution
- in or near polling places on election days
- in or near schools when they are in session

A citizen may fly the flag on any day he wishes.

HOW TO FLY THE FLAG

The flag should be raised and lowered by hand. Never, raise the flag while it is furled; unfurl, then hoist quickly to the peak of the flagstaff. It should be lowered slowly and ceremoniously. The flag should never be allowed to touch anything beneath it, such as the ground or the floor.

The flying of the flag at half-staff, is a sign of mourning. When flown at half-staff, the flag should be first hoisted to the peak, then immediately lowered to the half-staff position. It should be raised to the peak again for a moment before it is lowered for the day. "Half-staff" is the point midway between the top and bottom of the flagstaff. On Memorial Day in May, the flag should fly at half-staff from sunrise until noon, and at full-staff from noon until sunset.

At sea services by Navy chaplains, the church pennant may be flown above the flag.

No other flag may be flown above The United States flag except at the United Nations Headquarters. The UN flag may be placed above flags of all member nations. In the UN enclave, national flags of all members are flown with equal prominence.

When the flags of two or more nations are displayed together they should be flown from separate staffs of the same height, and the flags should be of approximately equal size. International usage forbids the display of the flag of one nation above that of another in time of peace.

HOW TO DISPLAY THE FLAG

When carried in procession with another flag or flags, the Stars and Stripes should be at the right-front of the column, or when there is a line of other flags, in front of the center of that line. The flag should never be carried flat or horizontally, but always aloft and floating free.

When a number of flags are grouped and displayed from staffs, the flag of the United States should be in the center or at the highest point of the group. When displayed with another flag from crossed staffs, the flag of the United States should be on the right (the flag's own right), and its staff should be in front of the staff of the other flag.

If the flag is displayed from a staff projected from a window sill, balcony or front of a building, the union of the flag should go to the peak of the staff (unless the flag is to be displayed at half-staff).

When the flag is displayed in any manner other than being flown from a staff, it should be displayed flat, whether indoors or out. If displayed either horizontally or vertically against a wall, the union should be uppermost and to the flag's own right; that is to the observer's left. When displayed in a window it should be suspended in the same way-that is, with the union to the left of the observer in the street.

When displayed over the middle of the street, the Stars and Stripes should be suspended vertical with the union to the north on an east-west street and to the east on a north-south street.

When the flag is suspended over a sidewalk from a rope extending from house to pole at the edge of the sidewalk, the flag should be hoisted out from the building toward the pole union first.

When used on a speaker's platform the flag may be displayed flat, above and behind the speaker. If flown from a staff it should be on the speaker's right; all other flags on the platform should be on his left.

When it is displayed on the pulpit or chancel in a church, the flag should be flown from a staff placed on the clergyman's right as he faces the congregation. All other flags on the pulpit or chancel should be on his left.

However, when the flag is displayed on the floor of a church or auditorium, on a level with the audience, it is placed to the right of the audience.

When flags of states or cities, or pennants of societies, are flown on the same halyard with the flag of the United States, the latter should always be at the peak. When flown from adjacent staffs, the Stars and Stripes should be raised first and lowered last.

When used to cover a casket, the flag should be placed so that the union is at the head and over the left shoulder. The flag should not be lowered into the grave or allowed to touch the ground. The casket should be carried foot-first from the hearse to the grave.

SALUTING THE FLAG

In saluting the flag those present in uniform should render the military salute. When not in uniform, men should remove the hat with the right hand and hold it at the left shoulder, the hand being over the heart. Women, and men without hats, should place the right hand over the heart. Aliens should stand at attention.

All persons present should face the flag, stand at attention and salute on the following occasions:

1. When the flag is passing in a parade or review. The salute to the flag in the moving column is rendered at the moment the flag passes.
2. During the ceremony of hoisting or lowering the flag.
3. When the National Anthem is played and the flag is displayed.
4. During the Pledge of Allegiance...I pledge allegiance to the flag of the United States of America and to the Republic for which it stands, one Nation under God, indivisible, with liberty and justice for all.

When the National Anthem is played and the flag is not displayed, all present should stand and face toward the music. Those in uniform should salute at the first note of the anthem, retaining this position until the last note. All others should stand at attention, men removing their hats. When the flag is displayed, all present should face the flag and salute.

HOW TO DISPOSE OF WORN FLAGS

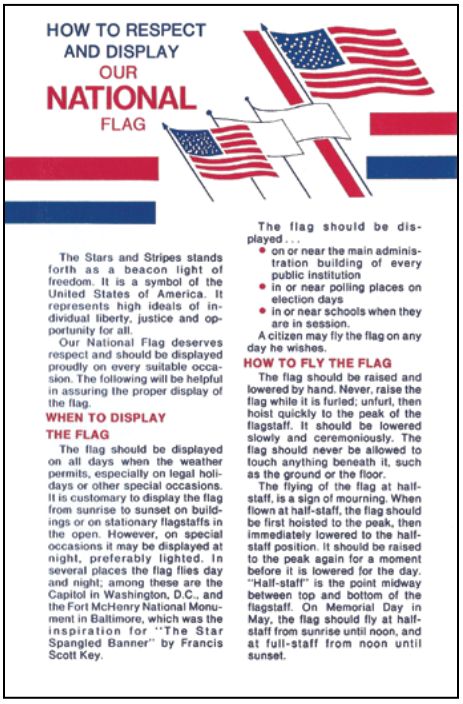

Every precaution should be taken to prevent the flag from becoming soiled. When a flag is in such a condition, through wear or damage, that is no longer a fitting emblem for display, it should be destroyed privately in a dignified manner.

The flag should NEVER

1. Be tilted (dipped) even momentarily to any person or thing. Regimental colors, State flags, organization or institutional flags may be tilted as the mark of honor.
2. Be displayed with the union down except as a signal of distress.
3. Be carried flat or horizontally, but always aloft and floating free.
4. Be displayed on a float, motor car or boat except from a staff.
5. Be allowed to touch the ground or floor, or brush against objects.
6. Have objects placed on, over it, or be used as a covering for a ceiling.
7. Have any mark, insignia, letter, work, figure, picture or drawing of any nature placed upon or attached to it.
8. Be used as a receptacle for carrying anything, or be used to cover a statue or monument. If used in connection with unveiling ceremonies, it should not serve as a covering of the object being unveiled.
9. Be used for advertising purposes or have advertising signs fastened to its staff or halyard.
10. Be embroidered on such articles as handkerchiefs or cushions, or be printed or otherwise impressed on boxes.
11. Be used as a costume or athletic uniform or part of one.
12. Be used as drapery of any sort whatsoever, never festooned, drawn back or up in folds, but always allowed to fall free. Bunting of blue, white and red-always arranged with the blue above, white in the middle, and red below-should be used for such purposes of decoration as covering a speaker's desk or draping the front of a platform.

FLAG ETIQUETTE BROCHURE

This fully illustrated brochure contains all of the etiquette printed on this page plus a "FLAG HOLIDAYS" and "CARING FOR YOUR FLAG" section. Measures 8" x 5-1/4".

HOW TO RESPECT AND DISPLAY OUR NATIONAL FLAG

The Stars and Stripes stands forth as a beacon light of freedom. It is a symbol of the United States of America. It represents high ideals of individual liberty, justice and opportunity for all.

Our National Flag deserves respect and should be displayed proudly on every suitable occasion. The following will be helpful in assuring the proper display of the flag.

WHEN TO DISPLAY THE FLAG

The flag should be displayed on all days when the weather permits, especially on legal holidays or other special occasions. It is customary to display the flag from sunrise to sunset on buildings or on stationary flagstaffs in the open. However, on special occasions it may be displayed at night, preferably lighted. In several places the flag flies day and night; among these are the Capitol in Washington, D.C., and the Fort McHenry National Monument in Baltimore, which was the inspiration for "The Star Spangled Banner" by Francis Scott Key.

The flag should be displayed . . .
- on or near the main administration building of every public institution
- in or near polling places on election days
- in or near schools when they are in session.

A citizen may fly the flag on any day he wishes.

HOW TO FLY THE FLAG

The flag should be raised and lowered by hand. Never, raise the flag while it is furled; unfurl, then hoist quickly to the peak of the flagstaff. It should be lowered slowly and ceremoniously. The flag should never be allowed to touch anything beneath it, such as the ground or the floor.

The flying of the flag at half-staff, is a sign of mourning. When flown at half-staff, the flag should be first hoisted to the peak, then immediately lowered to the half-staff position. It should be raised to the peak again for a moment before it is lowered for the day. "Half-staff" is the point midway between top and bottom of the flagstaff. On Memorial Day in May, the flag should fly at half-staff from sunrise until noon, and at full-staff from noon until sunset.

Eder Flag genuinely believes in the quality of our materials and workmanship; therefore, our tapered aluminum flagpole shafts are covered by a lifetime warranty. The document below provides specific details on our Warranty.

LIFETIME WARRANTY

Eder Flag Manufacturing Co., Inc. ("Eder Flag") Lifetime Aluminum Cone Tapered Commercial Flagpole Shaft Warranty (this "Warranty")

Eder Flag warrants for their intended use lifetime that the aluminum tapered flagpole shafts it manufactures will be free of defects in workmanship and material at the time of shipment. [When materials furnished on this job are used for the purpose intended, Eder Flag hereby warrants the cone-tapered aluminum flagpole shaft(s) shipped after May 1, 2017.]

This Warranty extends to the original purchaser only and covers the aluminum cone tapered flagpole shaft only and does not include any accessories or connecting hardware (including, without limitation, anchor bolts and foundations). This Warranty and the rights hereunder may not be assigned, transferred, or otherwise conveyed by the original purchaser. The accompanying hardware (except for snaps, rope, ornaments or cable) is warranted for one (1) year from date of purchase.

Items damaged by improper installation and/or grounding, overloading with incorrect flag size, accident, vandalism, vehicular impact, transportation/shipping or neglect or negligence by any person are not covered by this Warranty. This Warranty does not include failures caused by the following on-site conditions: wind-induced vibrations and corrosive soils with low (under 5) pH values (Alkaline) or high (over 9) pH values (Acidic).

This Warranty will be void effective immediately in all respects if any alterations, modifications, or additions are made to our product unless Eder Flag approves such alterations, modifications, or additions in writing in advance. This Warranty does not apply to, and Eder Flag shall not be liable or responsible for labor, dismantling, transportation, re-erection, shipping, removal, re-installation, taxes, or other similar incidental costs. In no event shall Eder Flag be liable for any loss of use, revenue, or profit, or consequential, indirect, special, exemplary, punitive, back charges, or liquidated damages, whether arising out of breach of contract, tort (including negligence) or otherwise, regardless of whether such damages were foreseeable and whether or not Eder Flag has been advised of the possibility of such damages, and notwithstanding the failure of any agreed or other remedy of its essential purpose. In no event shall Eder Flag's aggregate liability arising out of or related to this Warranty, whether arising out of or related to breach of contract, tort (including negligence) or otherwise exceed the cost of a replacement flagpole.

Material that needs to be returned will require a written authorization form from Eder Flag, including correct shipping instructions. Material returned without a return authorization will not be accepted.

This Warranty excludes any finishes, such as powder coating and anodizing processes.

Eder Flag will, at its sole discretion, repair, replace, or credit the original purchaser's account for any product that does not conform to this Warranty, and such repair, replacement, or credit shall be such purchaser's sole and exclusive remedy under this Warranty and otherwise. Except for the warranties expressly set forth in this lifetime warranty, Eder Flag makes no other warranties, express or implied, whatsoever with respect to aluminum tapered flagpole shafts, and all other warranties are hereby expressly disclaimed, including, without limitation, any warranty of merchantability, any warranty of fitness for a particular purpose and any warranty against infringement of intellectual property, whether express or implied by law, course of dealing, course of performance, usage of trade or otherwise. The purchaser acknowledges that this disclaimer is conspicuous.

RECEIVING AND STORAGE INSTRUCTIONS

Flagpole shafts can stain if they are allowed to remain in contact with wet or damp wrapping material. If there is any sign of exposure to moisture, remove the shaft from the tube and unwrap it immediately to allow it to dry. If the flagpole is to be stored outdoors, the paper wrapping must be removed, and the flagpole must be stored off the ground.

All sales will be subject to the terms and conditions contained herein. An objection by Buyer to any of the terms contained herein shall be deemed to have been waived if Eder Flag Manufacturing Co., Inc. (EFMC) does not receive the objection in writing within 10 days of receipt of invoice or acknowledgment or before part of the merchandise or services is accepted by Buyer, whichever may occur first.

1. **WARRANTY DISCLAIMER.** All products made by EFMC are inspected before shipment. If any goods prove to have been defective in material or workmanship at time of shipment, a claim shall be made by Buyer pursuant to the provisions set forth below. EFMC will repair or replace the goods at EFMC's discretion. Unless otherwise agreed by EFMC in writing, EFMC makes no warranties, express or implied. In no event shall EFMC be liable to Buyer for incidental or consequential damages.
2. **STATUTE OF LIMITATIONS.** Any action by Buyer against EFMC for breach of contract or any other legal theory must be commenced by Buyer within (1) year after the cause of action has occurred.
3. **RETURNS.** All returns must be authorized in advance by EFMC within (10) days of receipt of goods by Buyer. Buyer must pre-pay all freight on authorized returned goods. Freight claims resulting from return shipment are the responsibility of Buyer. Credit on account minus a restocking charge will be made upon inspection of returned goods. Custom, non-stock and special order items are not returnable. Returns will not be accepted after (10) days from receipt of merchandise and no adjustments of any kind will be made after 90 days from receipt of merchandise.
4. **SHORTAGES.** Claims for shortages must be made by Buyer within 48 hours of receipt of the goods, and no claims made after the expiration of such period will be entertained or allowed.
5. **DELAYS.** All orders are accepted by EFMC upon the express understanding by the Buyer that EFMC shall not be liable for delays in delivery of the goods or inability to deliver the goods caused by or due to inability to obtain transportation, equipment, or material, or by reason of fires, floods, storms, embargoes, actions of any military or civil authorities, whether legal or de facto, strikes, labor difficulties, riots, lock outs, acts of God, or similar or different circumstances beyond the control of the EFMC.
6. **FREIGHT.** All costs of freight, transportation, or mailing, unless prepaid, and all demurrage charges shall be paid by Buyer. Buyer shall also pay for all increased freight rates whether prepayment for freight rates has been made or not. Likewise, if freight charges have been prepaid and the actual freight charges are less than quoted, Buyer forfeits the difference.
7. **WAIVER.** A waiver by EFMC of any breach by Buyer shall not constitute a waiver by EFMC of any other breach by Buyer.
8. **DELIVERY.** Delivery of the goods by EFMC to the carrier at the point of origin shall constitute delivery of the goods to Buyer and thereafter the shipment of the goods shall be at Buyer's risk. All claims and allowances for damage to the merchandise incurred in transit must be filed against and presented to the carrier by Buyer. EFMC is not responsible for any delay, damage, or loss when goods are shipped under a buyers shipping account. Goods sent by mail are insured at cost of Buyer. See ederflag.com for additional shipping details.
9. **PAYMENT.** Prices Net 15 to approved credit. Terms are from date of invoice and not from date the goods are received. No extra dating. All payments shall be made in U.S. dollars. Any amounts past due are subject to a service charge of 1.5% per month (18% annually) starting 30 days after invoice date. The minimum merchandise billing amount of $75.00 net and a service charge of $5.00 will be charged on orders less than the minimum. **Credit/Debit Card Payments:** All credit/debit card payments will incur a convenience fee. If a credit/debit card payment is used at time of shipment, a 2% convenience fee will be added to the invoice. If a credit/debit card payment is used to pay an outstanding balance, net terms, a 3% convenience fee will be added to the invoice total. ACH and check payments are the preferred method of payment.
10. **CUSTOM PRODUCT.** Custom screen printed banners and flags are subject to variation in quantity. All orders subject to plus/minus 10% variance. Order accepted only on the basis that final invoice will reflect actual quantity delivered and Buyer agrees to accept and pay for overruns. All prices and specifications subject to change without notice. Deposit required for all custom and applique items, please see a customer service associate for details.

Continued on next page

©2025 Eder Flag Manufacturing Company, Inc. All Rights Reserved. CAT-25C01

11. **CANCELLATIONS.** Orders for custom, non-stock and special order items cannot be cancelled except upon terms acceptable to EFMC that will compensate EFMC for costs incurred.

12. **BACK ORDERS.** EFMC policy is to ship all available merchandise and back order the balance unless otherwise specified by the Buyer. Therefore, Buyer must accept partial shipments and pay partial invoices, handling fees and additional freight charges within EFMC payment terms.

13. **DIES, TOOLS AND PATTERNS.** Charges made for dies, tools and patterns are part of the purchase price of the goods and do not convey ownership to Buyer. All dies, tools and patterns remain the property of EFMC, unless agreed by EFMC in writing.

14. **COLLECTION.** Any collection fees, legal fees and/or court costs will be the responsibility of the Buyer in event of default based upon the terms of this agreement. In respect to such matters, legal fees by Buyer to EFMC will be defined as thirty-three and one-third percent (33⅓%) of any unpaid invoice. The jurisdiction of any and all legal disputes is the Circuit Court of Milwaukee County, Wisconsin. All parties waive the right to trial by jury.

15. **SHIPPING WEIGHTS, PRICES and SPECIFICATIONS.** Weights published by EFMC are approximate and will vary according to size of shipping carton and/or packaging materials used. Weights are published for determining approximate freight charges by Buyer. EFMC is not responsible for any difference in calculated freight charges versus actual freight charges. All prices and specifications are subject to change without notice.

16. **HANDLING FEES AND TAXES.** A $3.00 Shipping and Handling fee is added to each invoice. The appropriate State sales tax will be applied regarding shipments to the following States: Florida, Illinois, Wisconsin and any other State that charges a sales tax unless a proper tax exemption certificate is received by EFMC that has been issued by the subject State.

17. **PRICING AND AVAILABILITY DISCLAIMER.** All pricing is subject to change. EFMC reserves the right to make adjustments to pricing, product and service offerings for reasons including, but not limited to, changing market condition, production discontinuations, product unavailability and errors in advertisements. All orders may be subject to product availability.

We accept ACH, Check, Visa, MasterCard and American Express
